Free your hands *Make Fluorescent Testing Easier!*

CrackCheck Jaguar 365 Series LED UV Lamp utilizes the state-of-art LED technology and is widely used for fluorescent inspections in ship hulls, mining, wind turbines or any working conditions that require hands-free operation of the UV lamps within limited working space.

Two versions are available: headlight version (JG365/H) and spray bottle version (JG365/S). Jaguar Headlight can be put on head directly or be mounted on a safety helmet. Jaguar spray bottle light is mounted on a customized spray bottle with manual pressurizing. Jaguar365 consists of 2 UV LEDs and 3 white light LEDs. Powered by lithium batteries, Jaguar ensures long-lasting performance in the harshest conditions.

Hands-free

- Put on Head
- Mounted on Safety Helmet
- Mounted on Spray Bottle

Black Light and White Light

- 2 UV-A LEDs
- 3 White LEDs

Long-lasting Performance
